PATENT Elastic Fire and Water Proof CEMENT ROOFING.

THE undersigned is prepared to introduce into use in Tennessie W. E. CHILDS & CO'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOF-ING, and asks the attention of Architects, Builders, Railroad Companies, and the public, to examine its superiority ever other itsofing. Architects and Builders Should not tall to examine this Rooming, as it is better and cheaper than any thing in uso. The material forms a hard and smooth surface that will resist the

action of the atmosphere in every climate. It is im pervious to water, elastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neather evaporate, crack nor rot; and, as to its durability, there is no question. It is practically impershable, and will perfectly re-sist any ordinary external exposure to fire, as is fully and abundantly proven, and we will warrant it water proof. We will engage to put our Rooting on over or-dinary good sheathing, old shingles, tar and gravel, tia, tue, copper, or iron roots—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet, it being far cheaper than any roof of the old style, and we are sure it will give bet It will also be found to be the best thing ever in retiled to cover or mond old leaky tin, tar and gravel cofs, or around chimneys, scattles, dormer windows and gutters, where the tin is rusted through. This Cement cap be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. In Roots can be comented over (and war-ranted not to leak) at two dollars and fifty cents per undred square feet, which is cheaper and much bet ter than paint. This Rooting will be found to be the

best thing for covering large Roois where they are ex-posed to are—such as Steam Mills, Saw Mills, Facto-ries, Railroad Cars, Bridges, Depots, Station Houses, Steamboat Decks, and in factovery kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any light substance will burn out without igniting.

Roca's Remedy for Pulmonary and Tubercular Consumption. HAVING been appointed sole Agent for the sale of Don Genonino Roca's celebrated Cure for Consummer, the public will now be put in possession of one of the most extraordinary remedies extant for what has heretofore been considered an incurable

disease.

I have the more readily undertaken the agency, from the fact of its extreme simplicity—being an outward application, the action of which is seemingly miraculous, and its having none of these attributes which make up the numerous compounds now in general With the utmost confidence in the success of this remedy, which has heretofore been used in private practice with great success, as is shown by numerous letters and certificates, is now offered to the public. A pumphlet, containing directions, letters from dis-tinguished individuals, and documentary evidences from the physicians of the hospital of Havana, Island of Cuba, &c., will accompany the remedy. These speak volumes in its praise, and publicity is only required to render it as popular as it is benefical. Address, JAMES REES,

Sole Agent for the United States, No. 341 Market street, Philadelphia. Principal Office, 1020 Firzwates. feb11—2m Persons of Consumptive Habits. READ THIS! To THE GAFENBERG COMPANY: For the first time in my life I am induced to certify to the truly wonderful effects of a popular medicine, but in sending you the certificate I feel that I am only discharging a duty that I owe to the Grafenberg Company, and

more especially to suffering humanity.

About the first of June last, I had a pegro man taken with a cough attended with restlessness, spitting of blood, and other dangerous symptoms of consumption. I immediately called in a truly skillful and scientific physician, who told me it was a case of consumption. He treated him for several weeks, but he gradually grew worse. I then had another physician of great reputation in long diseases. He examined him, and also decided it to be a hopeless case of consumption, and said it was useless to spend money in trying to

I had previously promised the Græfenberg Agents here, (Messrs. Wells & Lowell,) that when the doctors gave him up I would try the Græfenberg Consump-tive's Balm. I did so and to my agreeable surprise, the man began to improve after taking only five or so doses. He took only two bottles of the Balm and three bottles of the Græfenberg Sarsanariba Compound which cost me the small sum of nine dollars, and to-day I consider him entirely cured. Hg is worth \$1,200, and he is doing me good service on the plantation. I consider him perfectly sound and well as he is fat, hearty, and strong, without a vestige or sign of disease left.

JOHN MYELS,
